stipulata f'dan l-Att, it-titolu legali tal-istess proprjetà jerga' jirritorna lura lill- SportMalta.

(5) Il-manutenzjoni kollha tal-proprjetà ttrasferita tkun fil-karigu tal-klabb mingħajr l-ebda dritt ta' kumpens.

(6) Il-klabb għandu l-obbligu li jzomm il-proprjetà fi stat tajjeb u jagħmel dawk ix-xogħlijiet u tiswijiet ordinarji u straordinarji kollha neċessarji tul il-perjodu kollu ta' din il-koncessjoni.

Kwalunkwe xogħol strutturali għandu jsir biss wara li l-klabb jikseb il-permess bil-miktub mingħand SportMalta sabiex il-klabb ikun jista' jwettaq dan ix-xogħol. Il-klabb ma jistax japplika għand l-Awtorità tal-Ippjanar u/jew iwettaq xogħol strutturali mingħajr ma jkollu l-permess bil-miktub ta' SportMalta.

(14) Il-klabb għandu l-jedd li jiġbor miżati xierqa u raġonevoli għall-użu temporanju tal-faċilitajiet li jinstabu fis-sit enfitewtiku. SportMalta għandu l-jedd li jara li din il-miżata hi waħda xierqa u raġonevoli.

Location & Planning Policy Considerations

The property is situated in Gudja and falls under the following site constraints;

- Outside Development Zone
- Valley Protection Zone

As shown in the Gudja Policy Map, the area in question is indicated as "Recreation Areas" and "Sports Facilities". In addition with reference to the "South Malta Local Plan" policy SMRE 01 Provision and Retention of Recreational and Sports facilities, which states;

"The MEPA will encourage the development of new and the improvement and upgrading, as well as extension, of existing recreational/sports facilities within the urban settlements, provided this will not create any significant adverse impacts to the locality, as well as the multi use of existing facilities whilst ensuring their retention. Any redevelopment proposals should include adequate landscaping measures.

The provision of appropriately located picnic areas in the countryside is encouraged provided that it is ensured that the facilities provided will not create negative impacts on the surrounding environment and can be properly managed.

The MEPA will not allow any development that results in the loss of existing urban and rural public recreational/sports facilities including existing or designated public gardens and amenity open spaces unless otherwise stated in other policies in this plan.

Proposals for new or extensions to and upgrading of existing sports facilities in the rural areas should adhere to the following criteria:

- a study has to be undertaken to justify the need for the new facility or the upgrading/extension of the existing facility (this study shall be based on demographic projections and realistic assumptions which demonstrate the requirement for additional facilities);
- the proposed development will not result in the loss of good quality agricultural land;
- the proposed development is not located on a scheduled, designated, protected or garrigue area or land which qualifies to be scheduled and with regard to a new facility is the result of a thorough site selection exercise;
- any proposed structures are to be limited to a building height of one floor, unless it can be demonstrated that an additional floor is necessary and will not result in an adverse visual impact;
- the site proposed requires substantial environmental improvement;

- vi. the location, scale and layout is consistent with protecting the landscape character of the area;
- vii. the development will not create significant adverse impacts on adjacent protected areas, ground water vulnerability, or nearby settlements and their communities;
- viii. access to the site does not cause a traffic hazard and adequate off-road parking can be provided within the curtilage of the site, where possible;
- ix. no change of use from recreational to residential will be allowed and should the development be discontinued the site should be reinstated to its natural state in line with rural conservation area policies;
- x. a landscaping scheme is to be submitted and approved with any permit application, which shall be implemented in its entirety within the first planning season and thereafter maintained; and,
- xi. development of major impact sports are to be directed towards appropriate disused quarries and areas requiring substantial environment improvements.

9.4.4

This policy aims to protect existing recreational/sports facilities and encourage the provision of additional facilities through new developments or upgrading of existing facilities. Due to the scarcity of land the duplication of facilities is not considered appropriate and therefore the multi use and improvement of existing facilities is encouraged and the relevant authorities are to put into place appropriate mechanisms to encourage such initiatives.

9.4.5

Sports facilities proposed ODZ will need to be carefully examined and a site selection exercise will have to be undertaken by the developer which would include the shortlisting of sites amenable for the development being proposed whilst adhering to the conditions identified in this policy. The use of disused quarry sites encouraging the rehabilitation of such areas and a complete upgrading of the site should be considered. The Plan recognises that some sports facilities, by their nature, are not acceptable within urban areas (e.g. shooting ranges, motor sports) and would have to be located outside the development zone boundary."

As shown in the Gudja Environmental Constraints Map, the area in question is indicated as a "Valley Protection Area". In addition with reference to the "South Malta Local Plan" policy SMCO 07 Valleys, which states;

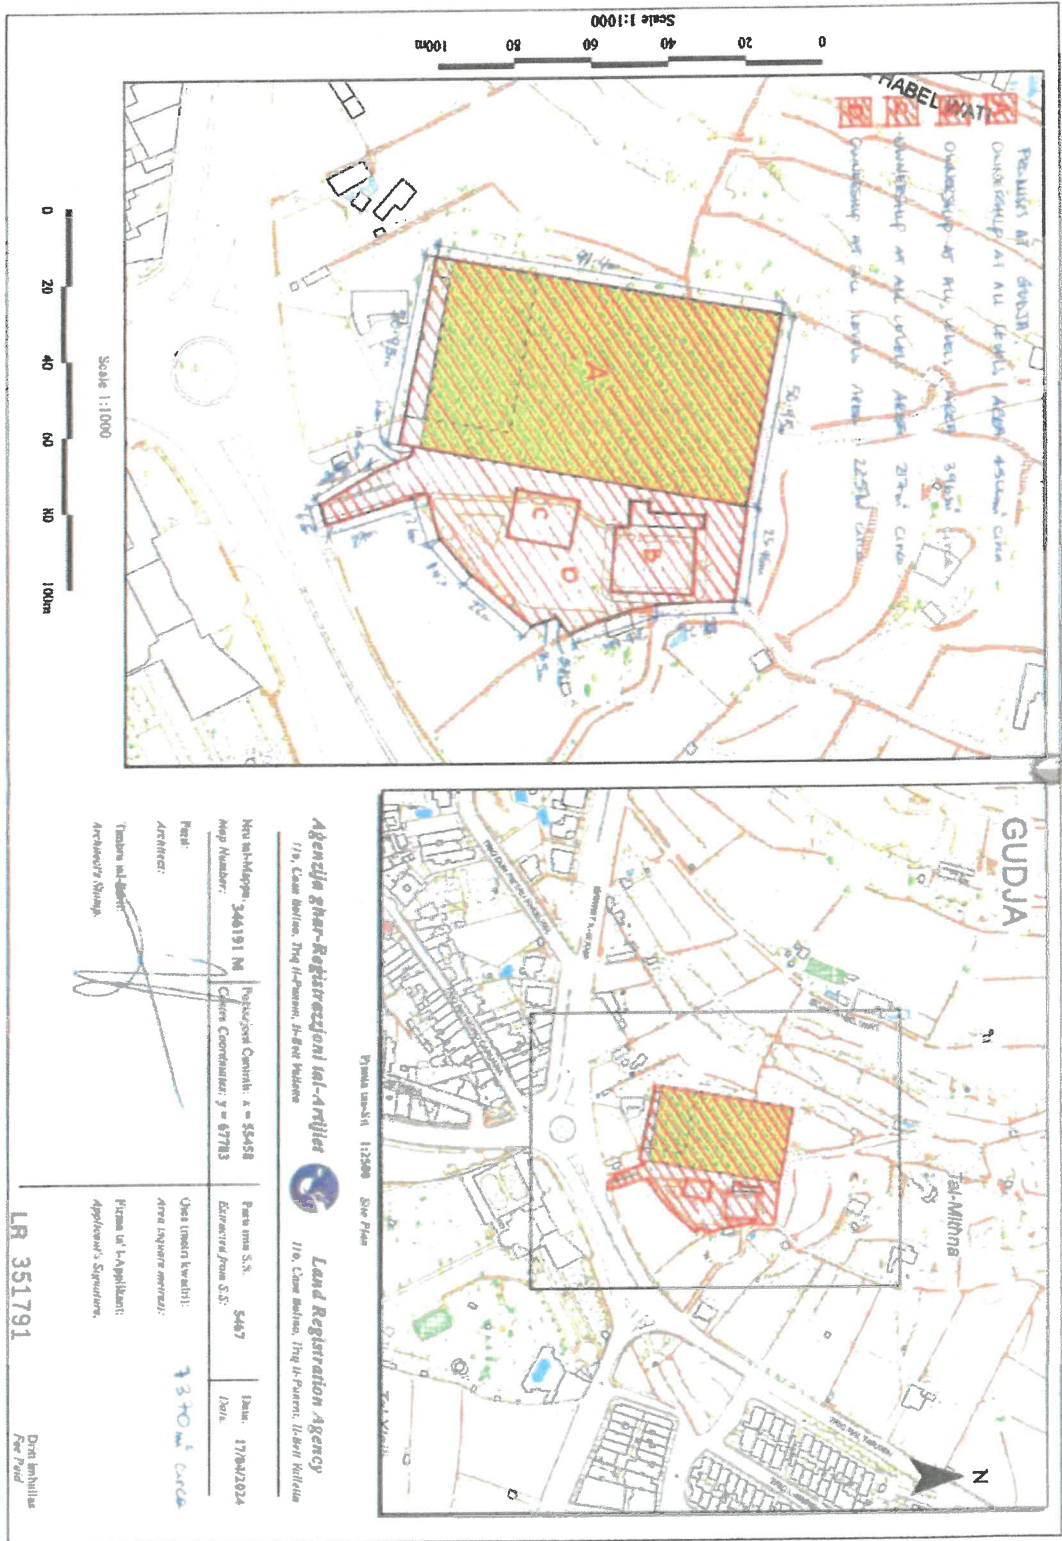

"Valley Protection Zones and valley watercourses are indicated on the Environmental Constraints Maps for the relevant localities. In line with the provisions of Policy RCO 29, there will be a presumption against any development within these areas that will adversely affect the function of the valley as an important water catchment area.

The MEPA in collaboration with relevant authorities and agencies will formulate rehabilitation and management plans to guide the reinstatement of valleys which have been degraded as a result of illegal dumping or specific development activities, particularly quarrying. Priority will be given to the valleys listed in policy SMCO 09 and particularly to the Wied Xkora (Siggiewi) area as indicated in the Siggiewi Policy Map SG 1.

8.4.11

The plan area is endowed with a number of valleys which adorn the landscape of this area. Unfortunately due to lack of management and adequate protection status most of these areas have been degraded as a result of illegal dumping. Other areas have been extensively degraded as a result of quarrying activity. This policy is aimed to identify these valley areas which merit protection and a careful approach to development whilst indicating specific areas which require the formulation of management plans to guide the rehabilitation and management of such areas. The reinstatement of these valley systems is important to ensure that they function as watercourses and in the process replenish the groundwater."
