(3) If a candidate who has made the required deposit is not elected, and the number of votes polled by him does not exceed one-tenth of the number of votes polled divided by the number of members to be elected for that division, the amount deposited shall be forfeited and paid by the Commissioners into the Consolidated Fund but in any other case the amount shall be returned to the candidate, where the candidate is elected, as soon as he has taken the oath as a member, and where the candidate is not elected, as soon as practicable after the result of the election is declared.

(4) Where a candidate is nominated at an election in two divisions he shall not recover his deposit more than once unless he is elected in both divisions, and if such candidate fails to obtain, in either division, the minimum number of votes required in accordance with subarticle (3) he shall forfeit both deposits.

(5) For the purpose of this article the number of votes polled by a candidate shall be the highest number of votes credited to him at

any time during the counting of the votes.

53. (3) If more than such number of candidates as aforesaid be nominated for an electoral division, the Commissioners shall cause a notice to be published in the Gazette over their signature stating the names of the candidates and the division for which they have been nominated. No person whose name has not been published in the said notice may be elected to be a Member of the House.

55. A candidate may, at any time until the ballot papers for the district he is contesting have started to be printed in terms of article 49, withdraw his candidature by giving notice to the Commission to that effect. (5) Upon final determination of all objections the Commission shall assign the Assistant Commissioners to the various polling booths; such distribution shall be made in such manner as to ensure that in each polling booth there is, at least, one Assistant Commissioner nominated by the Commission and one Assistant Commissioner nominated by each party contesting the election in that division:

(5) The expression "non-transferable paper" means a ballot paper on which no second or subsequent preference is recorded for a continuing candidate:

Provided that a paper shall be deemed to have become a non-transferable paper whenever:

- (a) the names of two or more candidates, (whether continuing or not) are marked with the same number, and are next in order of preference; or
- (b) the name of the candidate next in order of preference (whether continuing or not) is marked:
 - (i) by a number not following consecutively after some other number on the ballot paper or

PART II

Sorting of votes

Sorting of ballot papers.

3. In any general election, after the stage referred to in Part XIV of the General Elections Act, the Commission shall cause the ballot papers to be sorted out into parcels according to their first preference recorded for each candidate, rejecting any that are invalid.

Method of sorting.

4. The sorting of ballot papers indicated in the previous regulation shall be carried out in the following manner:

(1) the supervisor of each counting table shall take the topmost bundle of ballot papers from each pigeon hole and, in full view of the candidates and agents, place the bundles on a rack to pass to the counters;

(2) when a parcel of ballot papers has been taken from each different pigeon hole and placed on the rack as provided in the previous paragraph of this regulation, the supervisor shall pass to each counter one parcel at a time in order that the ballot papers may be sorted;

(3) the counters shall open each parcel with the ballot papers and ascertain whether each paper is valid or invalid;

(4) if the counters decide that there is a possibility that, for any reason according to the General Elections Act, a ballot paper may be invalid or if any candidate or agent for the same reason so claims, the counter shall place such ballot paper in a tray marked "dubious";

(5) if the ballot paper is considered as valid the counter shall place the ballot paper in a tray indicating the candidate to which the first preference has been given on that ballot paper.

5. (1) When a counter has so disposed of the parcel of ballot papers mentioned in the previous regulation he shall be given another parcel to sort in the same manner and so on and so forth until all the parcels on the rack have been counted.

Continuation of
sorting process.
Amended by:
XV. 1996.65.

(2) When all the parcels on the rack have been counted the supervisor shall take the next topmost parcel of ballot papers from each pigeon hole repeating the sorting process mentioned in regulation 4 and in paragraph (1) of this regulation and so on and so forth until all ballot papers have, in phases, been removed from the pigeon holes, put on the rack and sorted.

6. (1) Whenever the supervisor in charge of the sorting of votes of an electoral division determines that in the tray marked as "dubious" there are a sufficient number of ballot papers he shall call one of the Electoral Commissioners to collect such papers.

Dubious Votes.

(2) The dubious ballot papers may only be removed from the tray by an Electoral Commissioner who shall take them to the table of the Electoral Commission personally.

(3) The Electoral Commission, or any number of members thereof not being less than three, shall, after hearing the representations of the party delegates, or their substitutes decide in respect of each paper, whether it is valid or invalid and if they decide that it is invalid they shall so stamp the paper on its face.

(4) The decision of the Electoral Commission in this regard shall be final and not subject to appeal.

(5) Once all the dubious ballot papers have been declared valid or invalid by the Electoral Commission, they shall be returned to the appropriate electoral division by an Electoral Commissioner who shall pass them on to a supervisor of that division.

(6) The supervisor shall cause the invalid ballot papers to be put in a tray marked Invalid and the valid ballot papers to be sorted in accordance with the preceding regulations.

7. (1) The Commission shall then count the number of papers in the tray of each candidate, and credit each candidate with a number of votes equal to the number of valid papers on which a first preference has been recorded for such candidate, and they shall ascertain the total number of valid papers in that division.

Counting papers.
Amended by:
XV. 1996.65.

(2) When counting the number of papers placed in the tray of each candidate, the supervisor shall direct that such papers be bundled in packets of fifty papers each and that each packet is counted by at least two counters.

(3) The Electoral Commission may order that in the same electoral division the votes of more than one candidate shall be counted contemporaneously provided that they ensure that the ballot papers belonging to different candidates are kept separate.

(4) At the end of the count in a particular electoral division the Commission shall declare the total number of valid ballot papers in that division and the total number of valid votes credited to each candidate in that electoral division.

Ascertainment of quota.	8. The Commission shall then divide the total number of valid papers in each division by a number exceeding by one the number of vacancies to be filled. The result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate. This number is herein called the "quota".
Candidate with quota elected.	9. If at the end of any count the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall thereupon be elected.
Transfer of surplus. <i>Amended by: XV. 1996.65.</i>	10. (1) If at the end of any count the number of votes credited to a candidate is greater than the quota, the surplus shall be transferred, as in this regulation provided, to the continuing candidates for whom the next available preferences have been recorded on the ballot papers in the parcel or sub-parcel received by the elected candidate at that count.
Priority of surplus.	(2) A surplus which arises from any count shall be transferred before a surplus which may arise from a subsequent count. (3) If more than one candidate has a surplus arising from the same count, the largest surplus shall first be dealt with.
Equality of surplus.	(4) If two or more candidates have each an equal surplus arising from the same count, the surplus of the candidate with the greatest number of votes at the first count at which the candidates in question had an unequal number of votes shall first be dealt with. Where the number of votes credited to such candidates were equal at all counts the Commission shall determine by lot which surplus they will first deal with.
Original votes only.	(5) (a) If the votes credited to an elected candidate consist of original votes only, the Commission shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred.
Original and transferred votes.	(b) If the votes credited to an elected candidate consist of original and transferred votes, or of transferred votes only, the Commission shall examine the papers contained in the last sub-parcel last received by the elected candidate whose surplus is to be transferred.
Papers sorted to next available preference.	(c) In either case the Commission shall sort the transferable papers into sub-parcels according to the next available preference recorded thereon, shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.
Transferable papers equal or less than surplus.	(6) If the total number of papers in the sub-parcels of transferable papers is not greater than the surplus, the Commission shall transfer the whole of each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voter's next available preference, and shall set aside as a separate parcel so many of the non-transferable papers as are not required for the quota of the elected candidate. The particular papers set aside shall be those last filed in the sub-parcel of non-transferable papers.

- (7) (a) If the total number of transferable papers is greater than the surplus, the Commission shall transfer from each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next available preference the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers. Transferable papers exceed surplus; proportionate transfer.
- (b) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. A note shall be made of the decimal parts (to four significant places), if any, of each number so ascertained. Ascertainment of number of papers to be transferred.
- (c) If, owing to the existence of such decimal parts (to four significant places), the number of papers to be transferred is less than the surplus, so many of these decimal parts (to four significant places) taken in the order of their magnitude, beginning with the largest as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining decimal parts (to four significant places) shall be ignored. Treatment of decimal parts (to four significant places).
- (d) If two or more decimal parts (to four significant places) are of equal magnitude, those decimal parts (to four significant places) shall be deemed to be the largest which arise from the largest sub-parcels and if the sub-parcels in question are equal in size, the decimal parts (to four significant places) credited to the candidate with the greatest number of votes at the first count at which the candidates in question had an unequal number of votes shall be deemed to be the largest. Where the numbers of votes credited to such candidates were equal at all counts the Commission shall determine by lot which decimal parts (to four significant places) shall be deemed to be the largest. Equality of decimal parts (to four significant places).
- (e) The particular papers transferred from each sub-parcel shall be those last filed in the sub-parcel, and each paper so transferred shall be marked with the number of the count at which the transfer took place. Papers transferred from sub-parcels.

11. (1) If at the end of any count no candidate has a surplus and one or more vacancies remain unfilled, the Commission shall exclude from the poll the candidate credited with the lowest number of votes; shall examine all the papers of that candidate; shall sort the transferable papers into sub-parcels according to the next available preferences recorded thereon for continuing candidates; shall transfer each sub-parcel to the candidate for whom that preference is recorded; and shall make a separate sub-parcel of the non-transferable papers. Exclusion of candidates. One candidate excluded.

- (2) If the total of the votes of the two or more candidates Two or more excluded.

	lowest on the poll is less than the number of the votes credited to the next highest candidate the Commission may at the same count exclude those candidates from the poll and transfer their votes as in this regulation provided.
Selection of candidate for exclusion.	(3) If, when a candidate has to be excluded, two or more candidates have each the same number of votes and are lowest on the poll, the candidate with the lowest number of votes at the first count at which the candidates in question had an unequal number of votes shall be excluded, and, where the numbers of votes credited to those candidates were equal at all counts, the Commission shall decide by lot which shall be excluded.
Last vacancies.	12. Notwithstanding anything in these regulations contained: <p>(1) If at the end of any count the number of elected candidates is equal to the number of vacancies to be filled, no further transfer of votes shall be made.</p> <p>(2) If on the exclusion of a candidate or candidates the number of the then continuing candidates is equal to the number of vacancies to be filled, the continuing candidates shall thereupon be elected and no further transfer of votes shall be made.</p>
Procedure in transferring votes. Papers transferred.	13. (1) Whenever any transfer is made each sub-parcel of papers transferred shall be placed on the top of the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with a number of votes equal to the number of papers transferred to him.
Non-transferable papers set aside.	(2) Non-transferable papers, except such as in the transfer of a surplus may be required for the quota of the elected candidate, shall be set aside as a separate parcel together with any parcel of non-transferable papers already set aside.
Papers retained for quota.	(3) On the transfer of the surplus of an elected candidate, all papers not transferred to continuing candidates and not set aside as provided in the preceding paragraph shall be placed together in one parcel as the quota of the elected candidate and the parcel shall be marked with the name of the elected candidate.
Partial re-counts.	14. Any candidate or agent may, at the end of any count, request the Commission to re-examine and re-count all or any of the papers dealt with during that count, and the Commission shall forthwith re-examine and re-count accordingly the papers indicated without making any alterations in the arrangements of the papers in the various parcels save where such alteration may be necessary in consequence of any error discovered in the re-count; the Commission may also at their discretion re-count papers either once or more often in any case in which they are not satisfied as to the accuracy of any previous count; provided that nothing herein shall make it obligatory on the Commission to recount the same papers more than once.
Election petitions.	15. (1) Upon an election petition the court may direct the whole or any part of the ballot papers to be re-counted, and the result of the election to be ascertained in accordance with these regulations.

(2) On any re-count, subject to such modifications as may be necessary by reason of any order of the court, each paper originally declared valid shall, whenever any transfer of votes takes place, follow the same course as at the original counting of the votes.

16. (1) If any question shall arise in relation to any transfer of votes, the decision of the Commission whether expressed or implied by their acts, shall be final unless an objection is made in writing by any candidate or agent before the declaration of the poll, and in that event the decision of the Commission may be reversed upon an election petition.

Decision of returning officers on transfer.

(2) If any decision of the Commission is so reversed, the transfer in question and all operations subsequent thereto shall be void and the court shall direct what transfer is to be made in place of the transfer in question, and shall cause the subsequent operations to be carried out and the result of the election to be ascertained in accordance with these regulations.

17. The declaration of the result of the poll shall include a record of any transfer of votes made under these regulations, and of the total number of votes credited to each candidate after any such transfer, and shall be in the form shown in the Schedule to these regulations, or in a form to the like effect.

Result of poll. Form of declaration.

PART III

Casual Vacancies

18. In the event of a seat becoming vacant the Commission shall, within five working days from the date of the receipt of the President's Writ, give notice, to be published in the Gazette, of an election to fill the seat vacated.

Notice of vacancy.

19. Within five working days after the publication of such notice any person who:

Nominations.

- (a) at the general election held immediately prior to the occurrence of the said vacancy was a candidate nominated for election as a Member of the House for the electoral division in respect of which the vacancy has arisen, and did not withdraw from the election and was not elected, and
- (b) is still qualified to be so elected

may with his consent, be nominated as a candidate for the said vacancy.

20. Within three working days after the last day fixed for the receipt of nominations, the Commission shall decide on the validity of the nominations, and shall publish in the authorised form, the names, and description of the persons validly nominated, and the electoral division the seat whereof is to be filled.

Notice of valid nominations.

21. If there are any valid nominations, the Commission shall, within four working days, proceed to examine the ballot papers in the sealed parcel of the vacating member and the following provisions shall apply:

If two or more nominations, ballot papers of vacating member are examined.

(1) All candidates for the electoral division at the general election shall be deemed to be candidates excluded from the poll except those who have been validly nominated for the vacant seat.

(2) The papers preserved under seal in accordance with the General Elections Act in the parcel of the vacating Member shall be examined and transferred to the validly nominated candidates first available in order of preference shown upon such papers, and each validly nominated candidate shall be credited with one vote in respect of each paper transferred.

(3) In any case where there is only one validly nominated candidate, if such candidate is credited with votes in number equal to or exceeding half the number of papers in the parcel of the vacating Member, he shall be declared elected.

(4) In any case where there are two or more validly nominated candidates, the Commission shall exclude from the poll the candidate credited with the lowest number of votes and shall transfer his votes according to the next available preferences shown upon the ballot papers for the continuing candidate or candidates. The process of excluding the candidate lowest in the poll and of transferring his votes according to the next available preferences shall be continued until there is only one candidate remaining. If such candidate shall have then been credited with votes in number equal to or exceeding half the number of papers in the parcel of the vacating Member, that candidate shall be declared elected:

Provided that if at any time any candidates shall have been credited with votes exceeding the combined total of votes of all other candidates, and at the same time equal to or exceeding half the number of papers in the parcel of the vacating Member, he shall be declared elected without further transfer.

Vacancy filled by co-option in special cases.

22. (1) If a vacancy occurs in a seat which has been filled in accordance with this Part of these Regulations, or in accordance with subarticle (1) of article 54 of the General Elections Act, or if on a vacancy occurring no candidate is validly nominated, or if after examination of the ballot papers of the vacating Member no candidate secures election, the vacancy shall be filled by co-option, by the Members of the House of a person duly qualified for membership of the House.

(2) In filling a vacancy by co-option, regard shall be had to the representation as nearly as may be of the interests and opinions represented and held by the vacating Member.

PART IV

Article 52 of the Constitution

Additional members.
Added by:
XXI. 2007.7.

23. For the purpose of electing the additional members, if any, required in terms of sub-paragraphs (i) and (ii) of the first proviso to sub-article (1) of article 52 of the Constitution and of sub-paragraphs (i) and (ii) of the second proviso to the same sub-article, the Commission shall:

- (1) establish the total valid votes credited at first count to each of the parties that has elected members to the

House of Representatives;

- (2) establish the number of members elected to the House of Representatives by each of the parties;
- (3) for the purpose of sub-paragraph (i) of the first proviso to sub-article (1) of article 52 of the Constitution, when there is more than one party that has obtained less than fifty per centum of all the valid votes cast at first count at that election (hereinafter referred to as the "minority party") the Electoral Commission shall add together the totals of sub-regulations (1) and (2) of this regulation for all the minority parties so that, for the purposes of that sub-paragraph, there is effectively one minority party;
- (4) for each party, divide the number arrived at in pursuance of sub-paragraph (1) by the number arrived at in pursuance of subparagraph (2) obtaining the average vote per seat for each party, disregarding any remainders;
- (5) adopting the lowest average vote per seat obtained in terms of sub-paragraph (4) as the benchmark, hereinafter referred to as the "low average", divide the number of first count votes credited to the party with a higher average, hereinafter referred to as the "disadvantaged party" by the low average to obtain the total number of members of the House of Representatives that should be credited to the disadvantaged party;
- (6) the result obtained by subtracting the number of members elected to the House of Representatives by the disadvantaged party from the number of total members obtained by that party at sub-paragraph (5) above shall be the additional number of members of the House of Representatives that are to be declared elected in terms of the Constitution;
- (7) the total composition of the House of Representatives shall be such number of seats as is established in subparagraph (6) of this paragraph provided that if the total number of seats includes a remainder that remainder shall be eliminated by increasing or decreasing the number of seats to the nearest odd number.

Annex to the Thirteenth Schedule

Art. 52 of the Constitution

Regulation 23 of the General Elections (Sorting of Ballot Papers, Casual Elections and Co-Opting) Regulations 1991

Examples for calculating additional Members of Parliament
in terms of article 52 of the Constitution

1. Examples in terms of sub-paragraph (i) of the first proviso to sub-article (1) of article 52 of the Constitution

Example A - when only two parties elect members and the party with an absolute majority of votes elects a minority of members

Party A is credited with 150,000 valid first count votes and elects 30 members

Party B is credited with 140,000 valid first count votes and elects 35 members

Party C is credited with 5,000 valid first count votes and elects no members

1. Once all counts have been terminated in terms of these regulations and all 65 members have been declared elected, the Electoral Commission establishes that Party A has more than 50% of all valid first count votes (150,000 versus 145,000) BUT has a minority of elected members (30 versus 35 of Party B);

2. Since Party C has not elected candidates, the first count votes credited to its candidates are eliminated from all subsequent calculations;

3. Party A has a right to increase the number of its candidates to be declared elected so that, in percentage terms, the same proportion used for Party B when electing its own members is also used for Party A;

4. To establish that proportion, the Commission proceeds to determine the average number of votes used by each of the parties to elect each of its candidates and it does so by dividing the total number of votes credited at first count to all the candidates of each party that has elected candidates, by the number of candidates declared elected on behalf of that party, disregarding any remainders, so in this example:

- Party A - $150,000/30 = 5,000$
- Party B - $140,000/35 = 4,000$

5. The Commission adopts the lowest number so obtained (4000) as the average votes per seat to be applied for determining the final number of elected candidates to be credited to Party A and arrives at the total number by dividing the total first count votes credited to all its candidates (150,000) by the resultant lowest average votes per seat (4000), which result will represent the total number of candidates that are to be elected by the Party A:

- Party A - $150,000/4000 = 37.5$

6. From the result so obtained, representing the total number of candidates that are to be declared elected for Party A (37.5), the Commission deducts the number of candidates of that Party already declared elected (30) and the result thereof (7.5) represents the additional number of members that are to be declared elected on behalf of Party A

7. The total number of seats credited to Party A (37.5 seats) plus the total number of seats credited to Party B (35 seats) gives a total of 72.5 seats and since the total number of seats according to the Constitution has to be odd the total number of seats becomes 73

which is the nearest odd number to the total seats (72.5 seats) and the last seat assigned to the Party with the highest remainder, which in this case is Party A (Party A = 37.5 seats, Party B = 35 seats).

8. The final result would therefore be: Party A 38 seats and Party B 35 for a House of Representatives with 73 seats

Example B - when only two parties elect members and the party with an absolute majority of votes elects an absolute majority of members which is not proportionate to the share of the votes obtained by that party

Party A is credited with 160,000 valid first count votes and elects 33 members

Party B is credited with 140,000 valid first count votes and elects 32 members

Party C is credited with 5,000 valid first count votes and elects no members

1. Once all counts have been terminated in terms of these regulations and all 65 members have been declared elected, the Electoral Commission establishes that Party A has more than 50% of all valid first count votes (160,000 versus 145,000);

2. Since Party C has not elected candidates, the first count votes credited to its candidates are eliminated from all subsequent calculations;

3. Party A has a right to increase the number of its candidates to be declared elected so that, in percentage terms, the same proportion used for Party B when electing its own members is also used for Party A;

4. To establish that proportion, the Commission proceeds to determine the average number of votes used by each of the parties to elect each of its candidates and it does so by dividing the total number of votes credited at first count to all the candidates of each party that has elected candidates, by the number of candidates declared elected on behalf of that party, disregarding any remainders, so in this example:

- Party A - $160,000/33 = 4,848$
- Party B - $140,000/32 = 4,375$

5. The Commission adopts the lowest number so obtained (4375) as the average votes per seat to be applied for determining the final number of elected candidates to be credited to Party A and arrives at the total number by dividing the total first count votes credited to all its candidates (160,000) by the resultant lowest average votes per seat (4375), which result will represent the total number of candidates that are to be elected by the Party A:

- Party A - $160,000/4375 = 36.57$

6. From the result so obtained, representing the total number of candidates that are to be declared elected for Party A (36.57), the Commission deducts the number of candidates of that Party already declared elected (33) and the result thereof (4.75) represents the

additional number of members that are to be declared elected on behalf of Party A.

7. The total number of seats credited to Party A (36.57 seats) plus the total number of seats credited to Party B (32 seats) gives a total of 68.57 seats and since the total number of seats according to the Constitution has to be odd the total number of seats becomes 69 which is the nearest odd number to the total seats (68.57 seats) and the last seat assigned to the Party with the highest remainder, which in this case is Party A (Party A = 36.57 seats, Party B = 32 seats).

8. The final result would therefore be: Party A 37 seats and Party B 32 for a House of Representatives with 69 seats.

Example C - when three (or more) parties elect members

Party A is credited with 150,000 valid first count votes and elects 29 members

Party B is credited with 140,000 valid first count votes and elects 35 members

Party C is credited with 5,000 valid first count votes and elects 1 member

1. Once all counts have been terminated in terms of these regulations and all 65 members have been declared elected, the Electoral Commission establishes that Party A has more than 50% of all valid first count votes (150,000 versus 140,000) BUT has a minority of elected members (29 versus 36 of Party B + Party C);

2. Party A has a right to increase the number of its candidates to be declared elected and, in doing so, the same proportion of votes used to elect members is to be used for all parties;

3. Since there are more than one minority parties, the Commission adds together the total first count votes of both minority parties (140,000 + 5,000 = 145,000) as well as the seats obtained by both of them (35 + 1 = 36) and considers them as one minority party.

4. To establish the proportion provided for in subregulation 2, the Commission proceeds to determine the average number of votes used by each of the parties to elect each of its candidates and it does so by dividing the total number of votes credited at first count to all the candidates of each party that has elected candidates, by the number of candidates declared elected on behalf of that party, disregarding any remainders, so in this example:

- Party A - $150,000/29 = 5172$

- Party B + C - $145,000/36 = 4027$

5. The Commission adopts the lowest number so obtained (4027) as the average votes per seat to be applied to determine the final number of elected candidates to be credited to Party A and arrives at the total number by dividing the total first count votes credited to all the candidates of Party A (150,000) by the resultant lowest average votes per seat (4027), which result will represent the total number of candidates that are to be elected by the Party A:

- Party A - $150,000/4027 = 37.2$

6. From the result so obtained, representing the total number of candidates that are to be declared elected for Party A (37.2), the Commission deducts the number of candidates of Party A already declared elected (29) and the result thereof (8.2) represents the additional number of members that are to be declared elected on behalf of Party A.

7. The total number of seats credited to Party A (37.2) seats plus the total number of seats credited to Party B (35) and those credited to Party C (1) gives a total of 73.2 seats and since the total number of seats has, according to the Constitution, to be odd the total number of seats is reduced to 73 which is the nearest odd number to the total seats (73.2 seats).

8. The final result would therefore be: Party A 37 seats, Party B 35 and Party C 1 seat for a House of Representatives with 73 seats

Example D - When three or more parties elect members and the party with an absolute majority of votes elects an absolute majority of members which is not proportionate to the share of the votes obtained by that party

Party A is credited with 160,000 valid first count votes and elects 33 members

Party B is credited with 140,000 valid first count votes and elects 31 members

Party C is credited with 5,000 valid first count votes and elects 1 member

1. Once all counts have been terminated in terms of these regulations and all 65 members have been declared elected, the Electoral Commission establishes that Party A has more than 50% of all valid first count votes (160,000 versus 145,000);

2. Party A has a right to increase the number of its candidates to be declared elected and, in doing so, the same proportion of votes used to elect members is to be used for all parties;

3. Since there are more than one minority parties, the Commission adds together the total first count votes of both minority parties ($140,000 + 5,000 = 145,000$) as well as the seats obtained by both of them ($31 + 1 = 32$) and considers them as one minority party.

4. To establish the proportion provided for in subregulation 2, the Commission proceeds to determine the average number of votes used by each of the parties to elect each of its candidates and it does so by dividing the total number of votes credited at first count to all the candidates of each party that has elected candidates, by the number of candidates declared elected on behalf of that party, disregarding any remainders, so in this example:

- Party A - $160,000/33 = 4848$
- Party B + C - $145,000/32 = 4531$

5. The Commission adopts the lowest number so obtained (4531) as the average votes per seat to be applied to determine the final number of elected candidates to be credited to Party A and arrives at the total number by dividing the total first count votes credited to all the candidates of Party A (160,000) by the resultant lowest average votes per seat (4531), which result will represent the total number of candidates that are to be elected by Party A:

$$\bullet \text{ Party A} \quad - \quad 160,000/4531 = 35.31$$

6. From the result so obtained, representing the total number of candidates that are to be declared elected for Party A (35.3), the Commission deducts the number of candidates of Party A already declared elected (33) and the result thereof (2.3) represents the additional number of members that are to be declared elected on behalf of Party A.

7. The total number of seats credited to Party A (35.31) seats plus the total number of seats credited to Party B (31) and those credited to Party C (1) gives a total of 67.31 seats and Constitution, to be odd the total number of seats is reduced to 67 which is the nearest odd number to the total seats (67.31seats).

8. The final result would therefore be: Party A 35 seats, Party B 31 and Party C 1 seat for a House of Representatives with 67 seats

2. Example in terms of sub-paragraph (ii) of the first proviso to sub-article (1) of article 52 of the Constitution

Example 1A above will apply but the votes of Party C at first count would be taken at 15,000 and it would still not elect any candidate.

3. Example in terms of sub-paragraph (i) of the second proviso to sub-article (1) of article 52 of the Constitution

Party A is credited with 150,000 valid first count votes and elects 35 members

Party B is credited with 140,000 valid first count votes and elects 30 members

Party C is credited with 5,000 valid first count votes and elects no members

1. Once all counts have been terminated in terms of these regulations and all 65 members have been declared elected, the Electoral Commission establishes that Party A has more than 50% of all valid first count votes (150,000 versus 145,000);

2. Since Party C has not elected candidates, the first count votes credited to its candidates are eliminated from all consequent calculations;

3. The Commission proceeds to establish whether Party B has a disproportionately lower share of seats by establishing the average number of votes used by each of the parties to elect each of its candidates and it does so by dividing the total number of votes credited at first count to all the candidates of each party that has elected candidates, by the number of candidates declared elected on

behalf of that party, disregarding any remainders, so that in this example:

- Party A - $150,000/35 = 4,285$
- Party B - $140,000/30 = 4,666$

4. Party B has a right to increase the number of its candidates to be declared elected so that, in percentage terms, the same proportion is used for Party B when electing its own members as is also used for Party A;

5. The Commission adopts the lowest number so obtained (4285) as the average votes per seat to be applied for determining the final number of elected candidates to be credited to Party B and arrives at the total number by dividing the total first count votes credited to all its candidates (140,000) by the resultant lowest average votes per seat (4285), which result will represent the total number of candidates that are to be elected by the Party A:

- Party A - $140,000/4285 = 32.6$

6. From the result so obtained, representing the total number of candidates that are to be declared elected for Party B (32.6), the Commission deducts the number of its candidates already declared elected (30) and the result thereof (2.6) represents the additional number of members that are to be declared elected on behalf of Party B.

7. The total number of seats credited to Party A (35) seats plus the total number of seats credited to Party B (32.6) gives a total of 67.6 seats and since the total number of seats has, according to the Constitution, to be odd the total number of seats is reduced to 67 which is the nearest odd number to the total seats (67.6).

8. The final result would therefore be: Party A 35 seats and Party B 32 for a House of Representatives with 67 seats.

4. Example in terms of sub-paragraph (ii) of the second proviso to sub-article (1) of article 52 of the Constitution

Example 3 above will apply but the votes of Party C at first count would be taken at 15,000 and it would still not elect any candidate.

EXAMPLE OF THE METHOD OF COUNTING THE BALLOT PAPERS AT AN ELECTION CONDUCTED ON THE PROPORTIONAL REPRESENTATION SYSTEM OF THE SINGLE TRANSFERABLE VOTE

*Substituted by:
L.N. 178 of 1996.*

(See Part I of Regulations)

Let it be assumed that there are six members to be elected and that there are eleven candidates, A, B, C, D, E, F, G, H, I, K, L.

FIRST COUNT

The ballot papers having been mixed and examined, the invalid papers being excluded, and the valid papers sorted into separate parcels under the names of the candidates marked with the figure 1, each separate parcel is counted, and each candidate is credited with a number of votes equal to the number of the papers on which a first preference has been recorded for him.

The results of the count may be supposed to be as follows:

	Votes
B	140
F	62
H	50
C	25
L	24
G	14
I	12
D	10
A	7
E	4
K	-
Total	348

THE QUOTA

It is found that the total of all the valid ballot papers is 348. This total is divided by seven (i.e. the number which exceeds by one the number of vacancies to be filled), and 50 (i.e. the quotient 49 increased by 1, neglecting the fraction) is the "quota", or the number of votes sufficient to elect a member.

The votes obtained by B, F and H exceed or equal the quota, and they are thereupon elected.

SECOND COUNT

B has 90 surplus votes (i.e. B's total 140, less the quota 50), and it is necessary to transfer this surplus first as being the largest.

All B's 140 papers are examined and arranged in separate sub-parcels according to the next available preferences indicated thereon.

In general the next available preference will be the second preference. But any paper on which the second preference is given to either F or H, both already elected, passes to the next available preference after such candidates. A paper marked with 1 for B, 2 for H, 3 for F, 4 for I, is placed in the sub-parcel for I.

A separate sub-parcel is also formed of those papers on which no further available preference, i.e., no further preference for any continuing candidate is shown, and which are therefore not transferable.

The result is found to be as follows:

A next available preference is shown for D on	80 papers
A next available preference is shown for E on	2 papers
A next available preference is shown for I on	25 papers
A next available preference is shown for K on	29 papers
Total of <i>transferable</i> papers	136 papers
Total of <i>non-transferable</i> papers	4 "
Total of B's papers.....	140

Since the total number of transferable papers (136) exceeds the surplus (90), only a portion of each sub-parcel can be transferred, and the number of papers to be transferred from each sub-parcel must bear the same proportion to the total number of papers in the sub-parcels as that which the surplus bears to the total number of transferable papers.

In other words, the number of papers to be transferred from each sub-parcel is ascertained by multiplying the number of papers in the sub-parcel by 90 (the surplus), and dividing the result by 136 (the total number of transferable papers) giving 0.6617647.

The process is as follows:

D's sub-parcel contains 80 papers, and his share of the surplus is therefore	80 x 0.6617647 or 52.9412
E's sub-parcel contains 2 papers, and his share of the surplus is therefore.....	2 x 0.6617647 or 1.3235
I's sub-parcel contains 25 papers, and his share of the surplus is therefore	25 x 0.6617647 or 16.5441
K's sub-parcel contains 29 papers, and his share of the surplus is therefore	29 x 0.6617647 or 19.1912
Total	90

The numbers of papers to be transferred as determined by the preceding process contain decimal parts, and since only whole papers can be transferred, so many of the largest of these decimal parts, taken in order of their magnitude as will make the total number of papers to be transferred equal to the surplus are reckoned as of the value of unity.

Thus as the *whole* numbers determined above amount to only 88 viz. (52+1+16+19), or two short of the surplus, 90, the two largest decimal parts .9412 and .5441 are reckoned as unity, and the number of papers actually transferred are as follows:

To D	53 papers
To E	1 paper
To I	17 papers
To K	19 papers
Total, being B's surplus	90 papers

The particular papers to be transferred to D, E, I and K are those last filed in their respective sub-parcels, and, therefore at the top of the sub-parcels. The papers transferred are marked with the number of the count at which the transfer is made.

These papers are added in separate sub-parcels to the parcels of D, E, I and K. (Note: K had no parcel of original votes).

The totals of the votes credited to these candidates then become:

D	10+53 = 63
E	4 + 1 = 5
I	12+17 = 29
K	0+19 = 19

The remainders of the papers in the sub-parcels (i.e. those papers not transferred), together with the papers on which no further available preferences were marked are collected together and formed into one parcel, representing B's quota of votes (50).

The parcel is made up as follows:

The remainder of D's sub-parcel, 80 less 53 =	27
The remainder of E's sub-parcel, 2 less 1 =	1
The remainder of I's sub-parcel, 25 less 17 =	8
The remainder of K's sub-parcel, 29 less 19 =	10
Non-transferable papers	4
Total, being B's quota	50

The operations involved in this transfer are summarised in the following table:

COUNT No.2

TOTAL	140* (Total)	—	—	90* (Surplus)	50* (For quota)

Notes for Electoral Commissioners

* It will be found convenient to begin filling in the transfer sheet by inserting the totals in the spaces marked with an asterisk. These totals are known before the count is commenced.

† When transferring a surplus *all* the non-transferable papers are usually retained as part of the quota, *but when the number of transferable papers is less than the surplus*, the difference should be inserted in the space marked with a dagger, and a corresponding number of non-transferable papers should be transferred to the non-transferable box. These papers should be taken from the top of the parcel of non-transferable papers and the number taken should be shown on the Result Sheet on the line provided for non-transferable papers.

The state of the poll on the conclusion of the count is as follows:

	Votes
B	50 (elected)
F	62 (elected)
H	50 (elected)
D	63 (elected)
I	29
C	25
L	24
K	19
G	14
A	7
E	5
Total	348

D now has 63 votes, a number which is more than the quota. He is accordingly elected.

THIRD COUNT

There are now two surpluses that of F (12) and that of D (13). F's surplus, though the smaller, is first dealt with as it arose on a prior count. F's surplus is distributed proportionately among the next available preferences on F's original 62 papers in exactly the same manner as in the case of B, with the result that 9 papers are transferred to L, 2 to C and 1 to A.

The papers forming F's quota are placed together in one parcel, which is marked with F's name.

The papers forming the quota of H (who obtained an exact quota at the first count) are likewise placed together in one parcel, which is marked with H's name.

FOURTH COUNT

D's surplus (13) must now be distributed. For this purpose only the sub-parcel last transferred, containing 53 papers, is considered. These are examined and sorted into sub-parcels, according to the next available preferences, with the following result:

A next available preference is shown for I on	42 papers
A next available preference is shown for K on	10 papers
Total of <i>transferable</i> papers	52 papers
No further preference is shown on	1 paper
Total	53

The number of papers to be transferred from each sub-parcel is ascertained by multiplying the number of papers in the sub-parcel by 13 (the surplus) and dividing the result by 52 (the total number of transferable papers); therefore

I's share of the surplus is..... $42 \times 0.25 = 10.5$

K's share of the surplus is..... $10 \times 0.25 = 2.5$

As the decimal parts above are equal, that which arises from the larger sub-parcel is deemed to be the larger. I's share of D's surplus is, accordingly, 11 votes, and K's share is 2 votes.

The number of votes transferred and retained are in accordance with the simplified transfer sheet following:

COUNT No. 4

TRANSFER OF "D's" SURPLUS

Surplus	13
Number of transferable papers	52
Proportion to be transferred =	
Surplus	13
=	= 0.25
Number of transferable papers	52

Names of Candidates marked as the next available Preference	Number of Papers examined	Number of Papers transferred	Number of Papers retained for D's Quota
I	42	(10.5) 11	31
K	10	(2.5) 2	8
Total number of Transferable papers	52	(13) 13	39
Number of Non-Transferable papers	1	-	1
Totals	53 (Total)	13 (Surplus)	40 (For quota)

Sub-parcels of 11 papers and 2 papers marked with the number of the count at which the transfer took place are added to parcels of I and K respectively, and the remainders (31 and 8) together with the 1 non-transferable paper and the 10 papers received by D on the first count, making 50 papers altogether, are formed into one parcel, making D's quota of votes.

The state of the poll on the conclusion of the count is as follows:

	Votes
B	50 (elected)
F	50 (elected)
H	50 (elected)
D	50 (elected)
I	40
L	33
C	27
K	21
G	14
A	8
E	5
Total	348

FIFTH COUNT

There being now no surplus required to be dealt with, the Electoral Commissioner proceeds to transfer the votes of the candidate with the smallest total of votes. The candidate lowest on the poll is E, with 5 votes, but since the combined totals of E and A (5+8=13) are less than 14, the total of G, the next highest candidate, the Electoral Commissioner transfers the papers of both E and A at the same count.

The papers in the parcels of E and A (total 13) are examined, and is found that:

C is marked next available preference on 1 paper
 G is marked next available preference on 7 papers
 I is marked next available preference on 4 papers
 Non- transferable papers 1 paper
 Total 13 papers

The operation is completed by the transfer of 1 paper to C, 7 papers to G, 4 papers to I, and the 1 non-transferable paper is set aside as a separate parcel.

The state of the poll is now as follows:

	Votes
B	50 (elected)
F	50 (elected)
H	50 (elected)
D	50 (elected)
I	44
L	33
C	28
G	21
K	21
Non-transferable paper	1
Total	348

SIXTH COUNT

No candidate is elected as the result of the fifth count and the next operation has to be determined upon. Candidates G and K have each the same number of votes (21) and are lowest on the poll. K's papers are distributed, as he obtained fewer votes than G in the first count. From the distribution of K's papers (21), 3 papers are transferred to C, 15 to I, 1 to L, and 2 are non-transferable. I thereby reaches a total of 59 votes, and is elected.

The state of the poll is now as follows:

	Votes
B	50 (elected)
F	50 (elected)
H	50 (elected)
D	50 (elected)
I	59 (elected)
L	34
C	31
G	21
Non-transferable papers.....	3
Total	348

SEVENTH COUNT

I's surplus (9) must now be distributed.

For this purpose only the sub-parcel of papers last transferred to I (15 papers) is taken into account.

These are examined and arranged in sub-parcels for the continuing candidates, with the following result:

C is next available preference on	4 papers
L is next available preference on	3 papers
Total transferable papers	7
Non-transferable papers	8
Total	15

In this case the total number of transferable papers (7) is less than the surplus (9), therefore the Electoral Commissioner transfers the whole sub-parcels of transferable papers to the continuing candidates indicated thereon as next available preference. This accounts for 7 votes out of the surplus 9. There is a difference of 2 papers. The sub-parcel of non-transferable papers is therefore divided into two portions, one containing 2 papers (which form part of the surplus) the other containing 6 papers (which are required for I's quota). The portion of 2 papers is set aside as a separate parcel with the other parcels of non-transferable papers, and the portion of 6 papers is retained to make up I's quota (6+4=10).

The number of votes transferred and retained are in accordance with the transfer sheet following:

COUNT No. 7

Number of Non-Transferable papers	8	—	—	† 2	6
TOTAL	15* (Total)	—	—	9* (Surplus)	6* (For quota)

Notes for Electoral Commissioners

* It will be found convenient to begin filling in the transfer sheet by inserting the totals in the spaces marked with an asterisk. These totals are known before the count is commenced.

† When transferring a surplus *all* the non-transferable papers are usually retained as part of the quota, but when the number of transferable papers is less than the surplus, the difference should be inserted in the space marked with a dagger, and a corresponding number of non-transferable papers should be transferred to the non-transferable box. These papers should be taken from the top of the parcel of non-transferable papers and the number taken should be shown on the Result Sheet on the line provided for non-transferable papers.

The state of the poll after the seventh count is as follows:

	Votes
B	50 (elected)
F	50 (elected)
H	50 (elected)
D	50 (elected)
I	50 (elected)
L	37
C	35
G	21
Non-transferable papers	5
Total	348

EIGHTH COUNT

There being now no surplus, the votes of G, the candidate lowest on the poll, are distributed.

G's parcel of 21 papers is found to contain 7 papers on which C is the next preference, and 12 on which L is the next preference, and 2 papers which are non-transferable.

Therefore 7 papers are transferred to C, and 12 to L, and 2 are filed as separate parcel with the other parcels of non-transferable papers.

The state of the poll is now as follows:

	Votes
B	50 (elected)
F	50 (elected)
H	50 (elected)
D	50 (elected)
I	50 (elected)
L	49
C	42
Non-transferable papers	7
Total	348

There being now no surplus, C, the candidate lowest on the poll, is excluded from the poll. But, as there remains only one vacancy to be filled, and only one continuing candidate, namely L, L is elected without any further transfer of votes.

The final result is that B, F, H, D, I and L, are elected.

PART VI

EXCUSE FOR CORRUPT AND ILLEGAL PRACTICES

Reasons
exonerating
candidates in
certain cases of
corrupt and illegal
practice by agents.

58. The election of a candidate, who has been guilty, by his agents, of the offence of treating and undue influence, and illegal practice, or of any such offences, in reference to such election shall not, by reason of such offences, be declared void, nor shall the candidate be subject to any incapacity under this Ordinance, if the court is satisfied after giving the Attorney General an opportunity of being heard that the candidate has proved -

- (a) that no corrupt or illegal practice was committed at such election by the candidate or his election agent and the offences aforesaid were committed contrary to the orders and without the sanction or connivance of such candidate or his election agent; and
- (b) that such candidate and his election agent took all reasonable means for preventing the commission of corrupt and illegal practices at such election; and
- (c) that the offences aforesaid were of a trivial, unimportant and limited character; and
- (d) that in all other respects the election was free from any corrupt or illegal practice on the part of such candidate and of his agents.

Power of court to
except innocent act
from being illegal
practice, etc.

59. Where, in any proceedings, it is shown to the court by such evidence as seems to the court sufficient -

- (a) that any act or omission of a candidate at any election, or of his election agent or of any other agent or person, would, by reason of being the payment of a sum or the incurring of expense in excess of any maximum amount allowed by this Ordinance, or of being a payment, engagement, employment, or contract in contravention of this Ordinance, or of otherwise being in contravention of any of the provisions of this Ordinance, be but for this article an illegal practice; and
- (b) that any such act or omission arose from inadvertence or from accidental miscalculation or from some other reasonable cause of a like nature, and in any case, did not arise from any want of good faith,

and under the circumstances it seems to the court, after giving the Attorney General an opportunity of being heard, to be just that the candidate at the said election and other agent and person or any of them, should not be subject to any of the consequences under this Ordinance, the court may allow such act or omission to be an exception from the provisions of this Ordinance which would otherwise make the same an illegal practice, and thereupon such candidate, agent, or person shall not be subject to any of the consequences under this Ordinance of the said act or omission.

60. (1) Where the return and declarations respecting election expenses of a candidate at an election have not been transmitted as required by this Ordinance, or being transmitted contain some error or false statement, then -

- (a) if the candidate in any criminal or civil proceedings under this Ordinance proves to the satisfaction of the court that the failure to transmit such return and declarations, or any of them or any part thereof, or any error or false statement therein, has arisen by reason of his illness or of the absence, death, illness or misconduct of his election agent or of any clerk or officer of such agent, or by reason of inadvertence, or of any reasonable cause of a like nature, and not by reason of any want of good faith on the part of the candidate; or
- (b) if the election agent of the candidate proves to the satisfaction of the court that the failure to transmit the return and declarations which he was required to transmit or any part thereof, or any error or false statement therein, arose by reason of his illness or of the death or illness of any prior election agent of the candidate or of the absence, death, illness or misconduct of any clerk or officer of an election agent of the candidate, or by reason of inadvertence or of any reasonable cause of a like nature, and not by reason of any want of good faith on the part of the election agent,

Authorised excuse for non-compliance with provisions as to return and declaration respecting election expenses.

the court may, after giving the Attorney General an opportunity of being heard, make such order for allowing an authorized excuse for the failure to transmit such return and declarations, or for an error or false statement in such return and declarations, as to the court seems just.

(2) Where in any proceedings it appears to the court that any person being or having been election agent has refused or failed to make such return or to supply such particulars as will enable the candidate and his election agent, respectively, to comply with the provisions of this Ordinance as to the return and declaration respecting election expenses, the court, before making an order allowing the excuse as in this article mentioned, shall order such person to appear, and shall, unless he attends, and shows cause to the contrary, order him to make the return and declaration, or to deliver a statement of the particulars required to be contained in the return, as to the court seems just, and to make or deliver the same within such time and to such person and in such manner as the court may direct, or may order him to be examined with respect to such particulars, and in default of compliance with any such order, such person shall be guilty of an illegal practice.

(3) The court may allow the excuse conditionally upon the making of a return and declaration in a modified form or within an extended time, and upon the compliance with such other terms as to the court, seem best calculated for carrying into effect the objects of this Ordinance; and an order allowing an authorized excuse shall

relieve the candidate or the election agent, as the case may be, from any liability or consequences under this Ordinance in respect of the matter excused by the order; and where it is proved by the candidate to the court that any act or omission of the election agent in relation to the return and declaration respecting election expenses was without the sanction or connivance of the candidate and that the candidate took all reasonable means for preventing such act or omission, the court shall relieve the candidate from the consequences of such act or omission on the part of his election agent.

(4) The date of the order, or if conditions and terms are to be complied with, the date at which the applicant fully complies with them, is referred to in this Ordinance as the date of the allowance of the excuse.

PART VII

GROUND S FOR AVOIDING ELECTIONS

Avoidance by conviction of candidates.

61. Subject to the provision of article 55 of the Constitution of Malta the election of a candidate as a member of the House is avoided by his conviction for any corrupt or illegal practice.

Avoidance of election on other grounds.

62. Subject to the provisions of article 55 of the Constitution of Malta where applicable, the election of a candidate as a member of the House shall be declared void on any of the following grounds which may be proved to the satisfaction of the court namely:

- (a) if by reason of general bribery, general treating, or general intimidation, or other misconduct, or other circumstances, the majority of electors were or may have been prevented from electing candidates whom they preferred;
- (b) non-compliance with the provisions of this Ordinance relating to election or of the polling regulations if it appears to the court that the election was not conducted in accordance with the principles laid down in such provisions and that such non-compliance affected the result of the election;
- (c) that a corrupt practice or an illegal practice was committed in connection with the election by the candidate, or with his knowledge or consent, by any agent of the candidate;
- (d) that the candidate personally engaged a person as his election agent, or as a canvasser or agent knowing that such person had within seven years previous to such engagement been found guilty of a corrupt practice;
- (e) that the candidate was at the time of his election a person disqualified for election as a member.
