Dear Chairman

This communication is in response to the request made by the Hon. Fenech Adami on 13 November 2013 and communicated to Enemalta by the Clerk Assistant to the House via email on 14 November 2013.

On the occasion, Hon Fenech Adami requested:

It is pertinent to note that such information has already been supplied by the Corporation in answer to Parliamentary Question 649 posed by Hon Toni Bezzina on 25 April 2013. At the time, it was explained how HFO consumption during Quarter 1 of 2012 amounted to 137,338 metric tonnes, reducing to 108.095 metric tonnes in Quarter 1, 2013.

At the rate of Eur 517 per metric tonne, this results in financial savings of Eur 15,118,631.
