Frank Portelli talking sense

January 31, 2013 by [arnoldcassola](#)

The Times reports that former PN council president Frank Portelli said the Attorney General should ensure that the assets of all the suspects involved are 'frozen' as this would paralyse their activities. He also suggested that Parliament should be reconvened urgently to enact the Whistleblowers' Act, giving an amnesty to the first individual who exposes the whole truth .

"I expect that this would lead to a scramble among the suspects to be the first to squeal and benefit from the amnesty. This would show that the country means business and million of euros would be recovered," he said.

Frank Portelli is talking real sense!
